About This Game

Welcome to Digital Jigsaw Puzzle.

Digital Jigsaw Puzzle replicates the experience of putting together a real world jigsaw puzzle. This game is not grid based. The puzzles are free floating and pieces can connect at any location on the screen.

The jigsaw puzzles will come in 16, 64, 256, and 576 piece sizes. There are **158 unique** jigsaw puzzles to select from making this the **largest** jigsaw puzzle game available on Steam.

Different puzzle modes:

Table mode - All pieces are distributed evenly on the table from the start

Swimming Pool Mode - All pieces are divided into two "pools" of water on both sides of the screen. The pieces will float around allowing for the remainder of the screen to be cleared to complete the puzzle.

Scroll Mode - This mode allows you to cycle through different sets of pieces using the right mouse button to keep the table from being cluttered.

Game save features:

Your last played puzzle will save automatically. You may close the game and return at any time.

No paid DLC. No exceptions.

As a promise from the developer - this game will never contain paid DLC or ads. If new puzzles are added then you will receive them. If new modes, features, or content is added then you will receive it for free. You are buying the complete package with this game.
